

Realizing there is a pending law suit in Indiana for established businesses to become exempt of the blocked calling law for solicitations, I urge you to consider we do not want this unwanted bliss of business calls. Since we enrolled on this no-call list we have been blessed. We get enough junk mail from these people and have taken steps to stop that also. Please do not make us go through the process of wasteing our lives answering the telephone again. These people are ruthless. Thanks
